Sherman Library & Gardens has been part of the fabric of people's lives for nearly 60 years. Whether it's celebrating important life events with loved ones or being a refreshing oasis in a busy world, The Gardens have enriched lives through education and artistic experiences. We're an important resource for horticultural and historical collections of the Pacific

Southwest and a vital gateway to the community's natural beauty and rich history. Grow The Gardens is a \$17 million reimagining of Sherman Library & Gardens. This revitalization is needed to fulfill our simple but ambitious goal: to create the most beautiful, accessible, and impactful botanical garden and community hub in Southern California.

Reflection Garden

*Make History With Us* in two very special places in Sherman Library & Gardens. The Crown of the Sea wall facing Pacific Coast Highway is a gorgeous series of glass etched plaques bearing the names of our most generous benefactors. And within the Reflection Garden, the path will be lined Reflection Bricks where donors may honor loved ones and cherished memories.

We invite you to permanently write your name in the history of Sherman Library & Gardens.

## CROWN OF THE SEA RECOGNITION WALL on Pacific Coast Highway

Your family name will be permanently honored on exquisitely designed glass plaques that become part of this signature art piece. Your generosity will live at the center of a landmark enjoyed by all, reflecting your commitment to preserving beauty, history, and a shared sense of place for generations to come.
